About Me

I'm Devadarshini, a 2nd-year Mechanical Engineering student passionate about creativity, writing, and design. Currently, I'm doing internships in data science and product design. I enjoy writing engaging content and creating eye-catching designs using tools like Canva and SolidWorks, AutoCAD. Even I'm not in the field of Visual Communication department I've lot of interest in the graphic design. I enjoy creating visually appealing designs and am excited to start my career in the creative industry.

Sample Work 1 — LinkedIn cover Photo design

Tool Used: Canva

Description: Designed an Linkedin cover photo design for my linkedIn page. Used bright color themes, icon illustrations, and clean font to enhance readability.

Sample Work 2 — Poster Design (Team Event)

Tool Used: Canva
Description: Designed a poster for a Team introduction poster
. Included title, Slogan for the team, added dark colours in
background, and also added logo in centre.
